Gemini Collection

A unique combination of safety, economy and selection

2100 Series

25 Gauge (.019" min)
2" Sections

Safety, Economy, Selection

The Hörmann Gemini Collection offers you a wide range of styles and a broad variety of design options to enhance the beauty of your home. The virtually no-maintenance Gemini **2100 Series** are made of **25 gauge (.019" min.)** galvanized steel.

Deep tongue and groove section joint contribute to the door's **excellent strength**. Intermediate seals prevent air infiltration, which enhances the **insulation** properties.

Fully boxed end and center stiles add **additional structural integrity**.

Well-defined panel embossments, easy to clean woodgrain texture, galvanized and **finish painted steel** provide years of trouble-free performance and beauty.

The bottom weather seal **keeps out wind, rain, debris and other elements** for added energy savings.

Hörmann Special Features

Between Section & Side Seals

Factory installed between section weather seal and side seal offer maximum protection from the outside elements while further enhancing the insulation properties of a door.

White 11 Ball Bearing Nylon Rollers

Hörmann nylon rollers feature 11 pre-lubed ball bearings encased in a high strength steel casing that provides a quiet ride and years of reliable service.

Custom Door Heights

The Gemini Collection is now available in door heights up to 14' tall.
