

2021 Full Line Catalog

Building Value Into Building Products® for Over 75 Years!

ODL is the worldwide leader in doorglass and privacy solutions for residential entryways. We celebrated our 75th anniversary in 2020. When Cy Mulder opened a small woodworking shop at our inception, he did so with the intention of creating products that truly make your life better. This belief remains our guiding principle under today's 3rd generation of ODL family ownership.

We recently added **Salix**, a contemporary design inspired by nature, and we are excited to be adding two new decorative doorglass designs in 2021. **Ditto** is a simple silkscreen design that offers affordable high privacy. **Mistify**, a unique combination of pattern and texture, is available as a 1-light and with black grilles between glass.

From the creation of the first doorlight on record in the early 1950s to the launch of the versatile and innovative ZEEL® frame in 2019, ODL takes great pride in leading the industry in design and innovation—and in doing so with service and quality at the forefront.

We Make Your Life Better™ is not just our purpose, but our unending commitment to you.

We Know Doorglass

This is what ODL does.

Our experience is evident in the quality of our handcrafted glass, cut and shaped for a range of home styles across the country. ODL's experience is also reflected in the quality of doorglass construction: two panels of tempered safety glass, insulated for air- and water-tight performance. When you look at any one of our decorative doorglass products, you see a cohesive design, but many individual elements come together to create that design.

Light & Privacy Levels

Each doorglass design varies in the amount of light it transfers and privacy it affords. We assign a numerical privacy level to each doorglass, from a 0 for low-privacy transparent glass to a 10 for high-privacy opaque glass.

Privacy Level = 8

Price Level

Homeowners can also select decorative doorglass in a price range that suits their budget. Four levels, from the higher range \$\$\$\$ to the lower range \$, are offered based on doorglass design and materials.

Low-E Doorglass

Available with a hard coat finish.

Low-E + Doorglass

Available with a soft coat finish.

Simulated Divided Lights

Available sizes in simulated divided lights.

Turtle Code Compliant

Meets coastal light transmittance code requirements in sea turtle nesting areas.

ENERGY STAR®

Helps meet ENERGY STAR® requirements when used with an ENERGY STAR® qualified door or sidelight.

Severe Weather Doorglass

Families shown with this icon have sizes available in Severe Weather Doorglass.

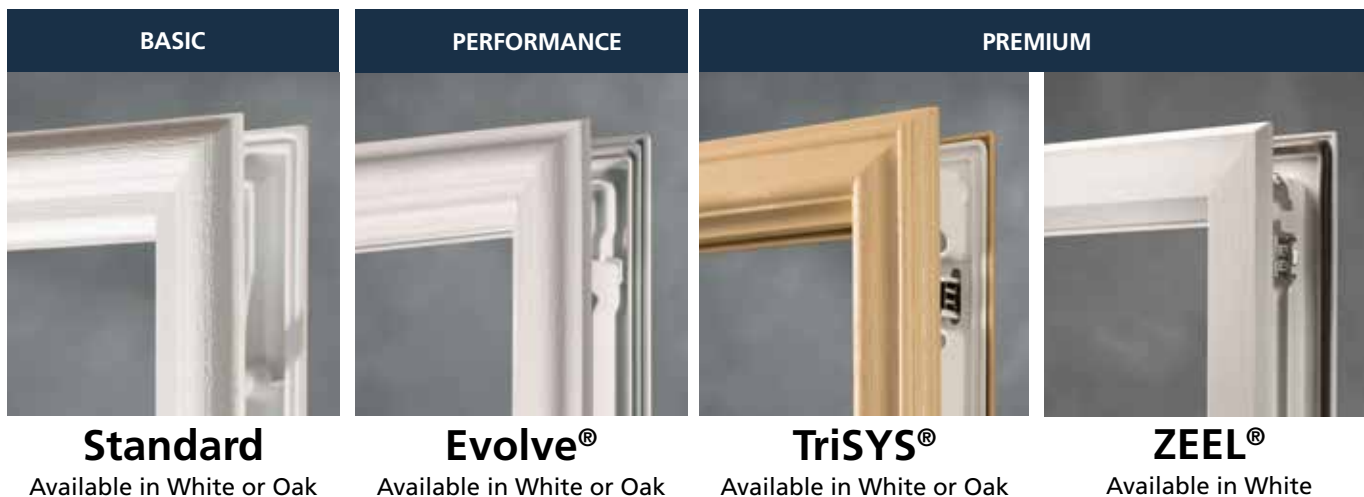

Sound Transmission Coefficient (STC)

STC > 30. Doorglass shown with this icon has an STC rating above 30 and offers enhanced noise reduction.

Doorglass frames

We offer the widest array of doorglass frame styles, colors, and materials in the industry to meet specific needs.

Reframing Innovation and Design

We explore design trends, listen to customer needs and expectations, and use our long history of innovation to bring you **the most versatile doorglass frame ever.**

Go to zeel.odl.com to learn more

Meet ZEEL®

A minimal design with endless opportunities.

ZEEL is a sleek, versatile frame designed to be stained or painted that blends seamlessly into the entry door, allowing the doorglass to take center stage. This **clean, low-profile look** offers an alternative to flush glazed doors that provides the benefits of a frame system with the style homeowners desire.

Traditional frames can warp when subject to severe temperature changes or direct sunlight exposure, especially when painted dark colors. **FiberMate Plus™** is our **strongest material yet** and exceeds performance expectations in extreme environments.

Resolve® sealant is immune to squeeze out and doesn't degrade over time, reducing service calls and warranty issues. This clean thermoset foam seal can be repositioned and stays consistent over time.

ZEEL eliminates the need for screws and cumbersome screw hole covers with an innovative clip system. This allows each frame to sit flush, streamlining installation and greatly reducing installation time and effort. This efficient installation offers an alternative to costly flush glazed doors.

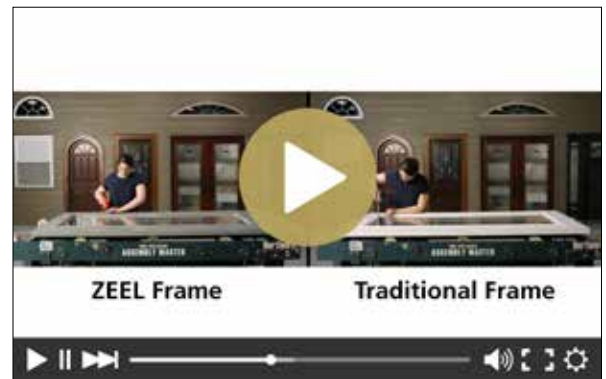

Watch & Learn

Learn how to save time, money, and reduce inventory with **ZEEL**.

ZEEL Frame vs Flush-Glazed Frame

ZEEL Frame Installation vs Traditional Frame Installation

Severe Weather Doorglass

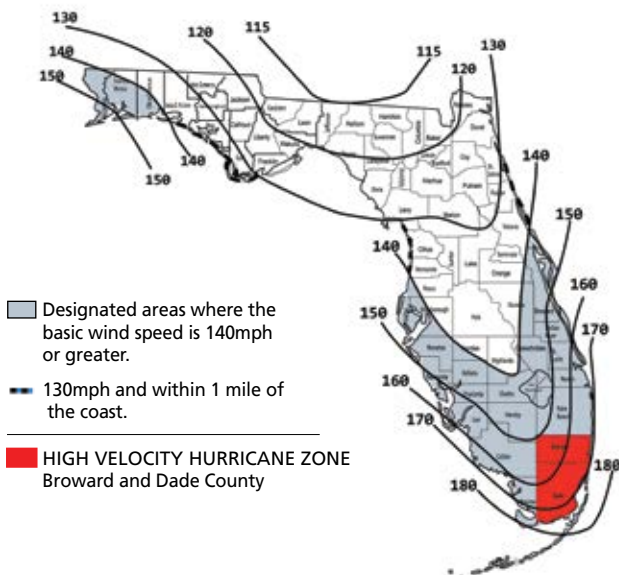

**Designed for Security.
Engineered for Strength.**

ODL severe weather doorglass is designed for hurricane-rated doors, especially for homes in wind-borne debris regions or high-velocity hurricane zones (HVHZ). The severe weather products meet wind-borne requirements in areas where wind speeds can exceed 180 mph, Design Pressure (DP) ± 66 psf, and wind and missile impact code requirements. The flat profile frame laminated severe weather door lights are certified to meet Florida Building Commission codes. Please go to www.odl.com/impact-standards for the most updated product certifications.

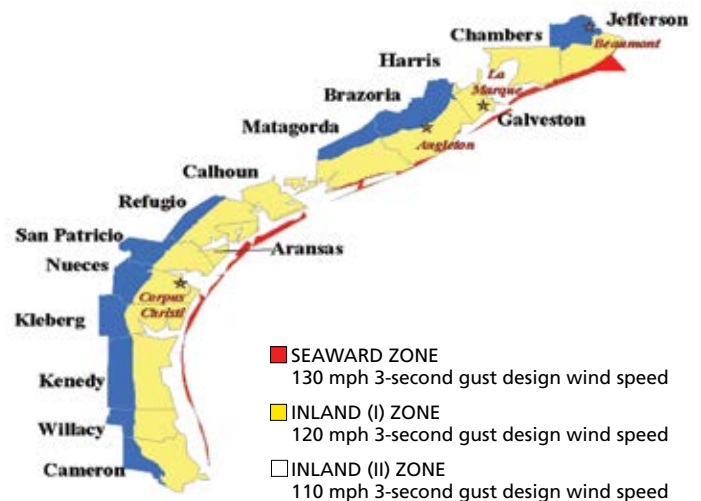

Look for these symbols throughout this catalog

Florida Wind-Borne Debris Region for Risk Category II Buildings

Texas First Tier Coastal Counties

Impact-Resistant Laminated Glass

ODL Decorative Doorglass, Blinds and Grilles are sealed between impact-resistant laminated glass on the exterior, and tempered safety glass on the interior.

Flat Frame Profile Offers Strength and Quality

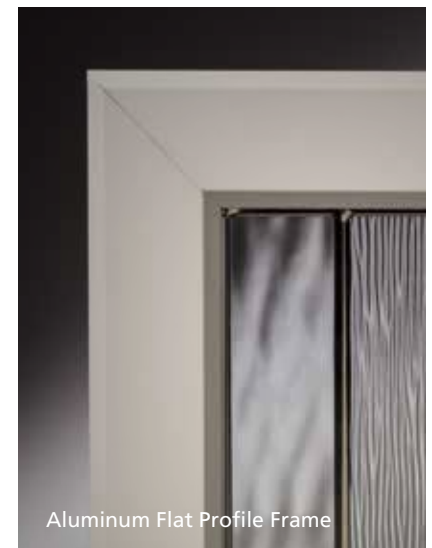

- Flat profile for a wider range of architectural applications
- Low 3/8" profile
- Longer screws reduce potential strip out
- Flat screw hole covers install flush to frame
- White powder coat finish on aluminum frame can be painted
- No shop-related Dow 995 application required
- Meets Florida Severe Weather requirements ± 66 DP
- Product certification information available under:
Florida Building Code approval FL14935.1, FL14935.2, FL14935.3, FL14935.4
Texas Department of Insurance approval DR-557, 625, 633, 634, 691, 692

Added Value of Noise Suppression

ODL Severe Weather Doorglass provides you with a quieter solution over storm shutters: they carry a sound transmission class rating of 37 dB for a level of sound suppression that is welcome year round.

Third party test reports are available at:
www.odl.com/stc

Missile Impact Tested

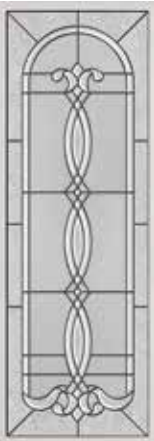

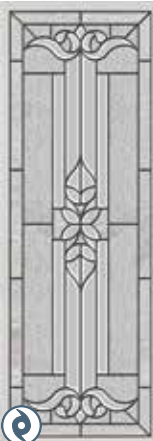

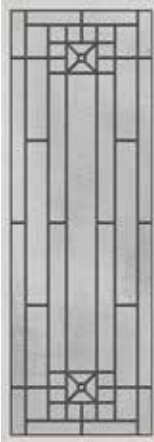

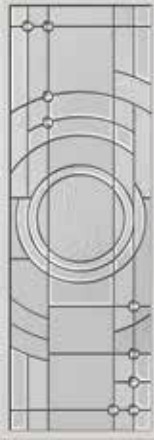

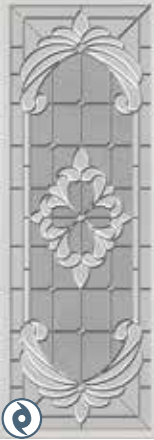

The Level D missile impact test involves firing an 8-foot long 2" x 4" at 50 feet-per-second at designated spots on the doorglass and door slab. The entire unit must remain intact through 9,000 pressure cycles, and also pass water-infiltration, structural loading, and forced air-infiltration tests.

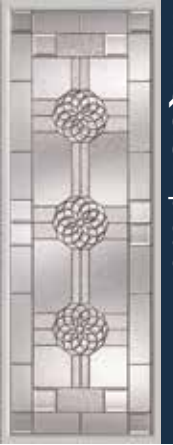

See the Missile Impact Test video at odl.com/doorglass_severe_weather#missiletesting

Avant 612-AV | 493-AV

Avant

Old World Style

True to its definition, Avant is a stylistically forward doorglass choice, yet it balances characteristics of European architecture and Old World styling. A black chrome finish softly curves throughout a textured glass surface accented with clear bevel clusters. Avant offers a medium level of privacy.

new Mistify Contemporary Style

Mistify is the playful combination of pattern and texture. The black drizzle pattern is fused to softly textured glass, resulting in a mesmerizing statement piece for any modern entryway and privacy for the home. This contemporary doorglass design is offered with black grilles between glass for a clean, divided look or as a single doorlight.

Dialogue Layered Glass®

Playful interaction and dynamic privacy

Dialogue takes on a personality of its own as layers of glass interact with one another, with light, and with movement. Each of the line's six ceramic frit patterns change form and move as light or a person's vantage point changes. Patterns come to life, shapes are revealed, and shadows dance as light and movement engage in a dialogue with the glass. Dialogue layered glass creates dynamic privacy that changes, just as the doorglass patterns do, with light and proximity.

Subtle beauty and a surprising twist

Dialogue complements a range of architectural styles and design aesthetics with doorglass patterns offering privacy and translucence. Ayako Takase and Cutter Hutton, principals of industrial design firm Observatory, created each of Dialogue's designs with a subtle pattern on the outer glass layer that allows the home's architecture to take center stage while the interior layer features a bolder, pronounced pattern.

Perspectives Textured Doorglass

A view. A viewpoint.

A city skyline.

An attraction to cultural artifacts.

A swirl of clouds.

A cosmopolitan sensibility.

A colorful marketplace.

An appreciation for tradition and trends.

The front door of your home. A perspective of what lies beyond.

ODL considered views and viewpoints from around the world as we designed our Perspectives line. Textures, colors, patterns, terrain, objects, cultural influences—all led to this diverse collection of privacy glass styles for your entry door.

Chinchilla

Textured Doorglass

As touchable as its namesake, Chinchilla's fine lines and organic, fur-like texture create a striking wave pattern when seen from afar. It offers a high level of privacy to your home.

Spotlights® Doorglass

Authentic Design for the Architecture Enthusiast™

Trends come and go. Good design lasts. As do good memories. Of homes you grew up in. Of architectural styles you've admired. Spotlights doorglass, from ODL, celebrates the best of your design history.

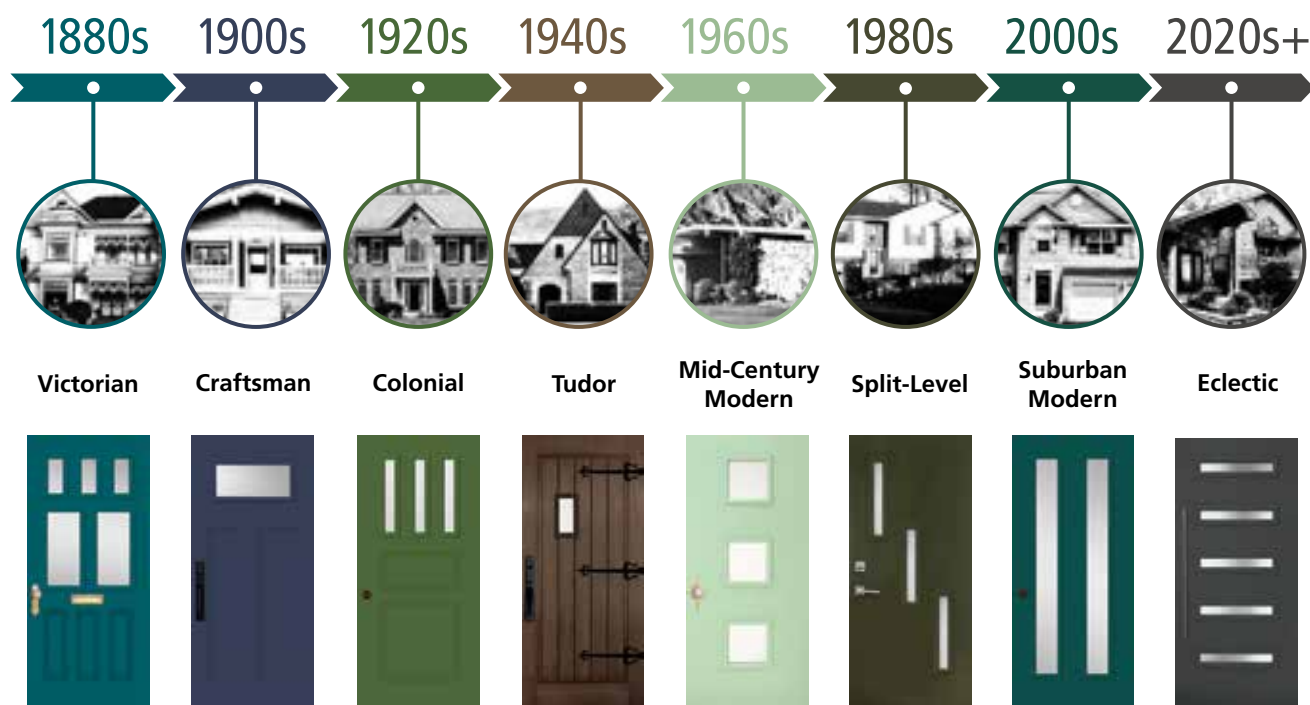

Put the spotlight on... your style, your price, your architectural expression, your entry door, your home.

Architectural style is what gives a home character. The charm of bungalows. The geometric patterns of mid-century minimalism. History revisited in Georgian revivals and Colonials. The horizontal stretch of ranch homes and the vertical stack of bi-levels and tri-levels.

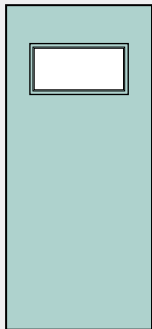

Because you're inspired by your home's architecture or the vision of the one you're building, Spotlights doorglass is for you. It's the finishing touch for the discerning homeowner who appreciates architecture and the spirit of good design.

Fit the Bill

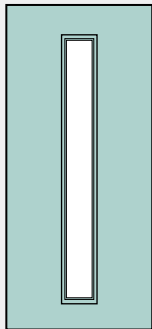

Spotlights gives you options that make it easier to meet your renovation and construction goals. Five doorglass sizes and seven glass options give you flexibility to create a unique look that complements the architecture of your home. Small and large glass sizes, horizontal and vertical shapes, and choices for the number, orientation, and type of glass give you plenty of flexibility for exactly the style, privacy, and price you desire.

Heighten the Performance

Spotlights is constructed with performance features that style-savvy homeowners look for. Spotlights' FiberMate® molded and textured frame works equally well for painting or staining. FiberMate's material formulation outperforms lesser quality frames: the frame's construction resists both warping and deformation from heat buildup and can be used with dark finishes.

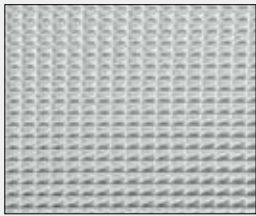

Spotlights' compression foam tape seal construction eliminates the oozing and sticky mess of wet caulk products. The frame seal's design is also engineered to extend the life of your door frame. If damaged doorglass needs to be replaced, you can do so without having to replace the frame as well. The modern Spotlights frame with compression foam tape seal is removed from the door, damaged glass repaired or replaced, and the frame reinstalled. Insulated glass and a well-constructed frame unit make Spotlights energy efficient.

Seated screw hole covers allow for easy alignment and match the frame's grain direction, resulting in a uniform, finished aesthetic.

Keep It Real

Spotlights are true to the character of your home's aesthetics. Chinchilla, Circuit, Clear, Clear Low-E, Cubed, Frosted and Rain glass, and an architecturally authentic modern frame profile create the minimalist aesthetic and functional attributes you're wanting in your home.

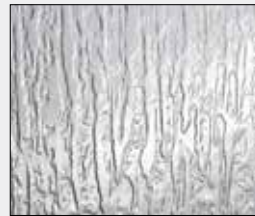

The textured grain in Spotlights' frames is reminiscent of classic mid-century maple and birch furniture. The uniform and subtle grain provides a perfect surface for paint or stain.

Enclosed Blinds Color Collection

white, espresso, sand, silver moon, or slate gray

In keeping with ODL's attention to style and design, we have five colors of Enclosed Blinds: White (available in the ZEEL® Frame only), Sand, Espresso, Slate Gray, and Silver Moon. With matching privacy channels and operators, the colors of your entry door blinds will always coordinate with your décor. The collection, except for white, is available in Evolve® frames which provide superior rigidity and eliminate bothersome squeeze out using our dry glaze seal.

- No cords; safe for children and pets
- No dusting
- Single reduced travel operator* for raise, lower and tilt
- Privacy channels for complete privacy
- Energy efficient warm-edge spacer system

*Due to the size and weight of the blinds, the 80" sizes have a dual operator that controls the raise, lower and tilt function.

Enclosed Blinds tan or white

Maintenance-free option for controlling levels of doorglass light and privacy.

Blinds lower neatly within full privacy channels to eliminate light gaps.

Enclosed blinds mean no dust or dirt, no kinks or dents, and no banging of the blinds when you open and close your door. A cordless design is a safer solution when children or pets are in the house. Light-Touch® blinds are designed and engineered to be used day in and day out. We've tested them for more door slamming (50,000 times) and adjusting (10,000 times) than your average household use. The glass seal is warranted for 20 years.

Uniform color in components provides a clean aesthetic look.

Triple-Glazed Enclosed Blinds
686-CGBG-BLD

Triple-Glazed Enclosed Blinds

With Grilles Between Glass

The triple-glazed design suppresses traffic sounds and other unwelcome noises with a STC rating value of 34*. Triple-glazed design also reduces heat transmission by up to 28%. All triple-glazed doorglass is offered with a Low-E glass option.

**STC = Sound Transmission Coefficient.*

See www.odl.com/stc for more information.

Raise, Lower & Tilt—No Dusting!

Ergonomic design principles place fingertip control within easy reach. Side operator raises, lowers, and tilts the blind.

Blinds completely disappear into top valance when fully raised.

Triple Glazed Doorglass Blinds

white 

Privacy and Light Control

With the blinds lowered, you control the amount of privacy and light coming into your home. With the blinds raised, you feature your grille door style. Looks and function with none of the cleaning and banging associated with traditional blinds. That's a triple win!

- Side operator raises, lowers, and tilts the blind
- Triple-glazed design reduces heat transmission by up to 28%
- Helps meet ENERGY STAR® requirements when used with an ENERGY STAR® certified door or sidelight
- 20 YEAR GLASS SEAL WARRANTY
- Available in white 11/16" contoured grille

Energy Efficient

Glass + grille + glass + blind + glass = energy efficient, sound dampening, privacy and light control, and the charm of contoured door grilles.

Contoured Grilles Between Glass
612-CGBG 12-Light | 493-CGBG 6-Light

Grilles Between Glass

Contoured Grille - 11/16" (CGBG)

The slight contour of these grilles creates an appearance of depth in your door, sidelight, or transom. Contoured grilles are a great option for French-style patio doors, too. Offered in two finishes, grilles can also be customized to create exactly the look you desire.

Clear Doorglass & External Grilles

When you want the view and nothing but the view, Clear Glass is your answer. It is an option that works equally well from your entry door to your patio door. Offered in standard 6/8 and 8/0 door sizes, the breadth of options for doors, sidelights and transoms means choices that fit your home.

When you need the basics, our External Grilles with Clear Glass offer you a wide range of styles and choices. External Grilles are offered in finishes to complement stained or painted doors. Grilles are available for doors and sidelights.
