The Industry Leader in Innovative Door Choice and Quality

**Between Section Seals 1**

Special heavy-duty material that acts as a gasket between sections to reduce the air infiltration while further enhancing the insulation properties.

FingerGuard™ Pinch-resistant Section Joints 2

Prevent fingers from getting caught between the door sections reduces the risk of injuries which may result in worker's compensation claims.

Bottom Weather Seal 3

Keeps out wind, rain, debris and other elements for added energy savings.

Panel Surface Treatment 4

Galvanized finished painted steel provides superior corrosion resistance for years of trouble-free performance.
